

Studio Unknown is an award-winning audio post and music production facility that offers services ranging from sound design and audio post production to original music composition and artist consultation. With over 15 years of experience in the industry, Owner/Engineer/Producer Kevin Hill established Studio Unknown in 2004 with the goal of providing clients with outstanding creative services in a relaxed and friendly atmosphere. Our philosophy of excellence extends beyond the stellar products we deliver and into the client-centered services we provide. Here, our clients are never merely a number on a service ticket. Instead, we pride ourselves on building relationships and offering that personalized touch that no longer exists at many large-post houses. What's more, we strive to develop effective plans to deliver projects on time, within budget, and beyond expectations. We proudly offer our clients a full selection of service capabilities, which include audio post production for film, TV, video, and web, sound design for gaming, as well as original music composition and music production.

AUDIO POST PRODUCTION

- ADR (Automatic Dialog Replacement)
- Audio format transfer
